

Normandy Shutters

Made from Kiri wood, the unique silky smooth knot-free finish and appearance of our Normandy Shutters make them gentle to the touch, gentle on the eye and gentle on the environment.

TIMELESS TIMBER

Our Normandy shutters are manufactured from the hardwood of the Kiri tree, one of the most sustainable and fastest growing tree species.

SOURCED FROM SUSTAINABLE FORESTS

QUALITY IN THE MAKING

Manufactured and installed to best practice European and American quality standards.

- Overlapping rabbit stiles for improved light block-out and privacy.
- Reinforced engineered stiles with laminated timber core for high level of durability and structural integrity.

LIGHTWEIGHT

KIRI WOOD:

- Has one of the highest strength to weight ratios.
- Is free of volatile oils and low in resin, improving its fire-retardant properties compared to other timbers.
- Is naturally resistant to rotting, decay and borer beetles.
- Is an excellent insulator.

HINGED

• BI-FOLD

• BY-PASS

- Mortise and tenon joints to withstand shear stress and twisting forces.
- Quarter sawn louvres, for higher dimensional stability to resist cupping, twisting and warping.
- Meticulous assembly process that includes five separate hand sandings and five coats of your ideal paint or stain colour.

ROBUST

CHOICE FINISHES

- Special shaped shutters for angled and curved openings
- 3 louvre sizes – 63, 89 and 114mm
- 3 tilt rod options – traditional, off-set and secret tilt
- Widest range of frame choices on the market
- A standard palette of 50 natural and solid colours or stains, as well as custom colours
