

SECURITY Shutters

KEEP YOUR HOME BEAUTIFUL AND YOUR FAMILY SAFE

Precision engineered security with the beauty of traditional shutters. Introducing AMERICAN shutters' stylish Security Shutters with an industry first 'Gear Tilt' system.

ELEGANT CONTOURS

• ULTRA SMOOTH LOUVRE OPERATION

• UNOBSTRUCTED VIEWS

PRIVACY WITH A VIEW

The new 'Gear Tilt' is hidden in the shutter framework and nullifies the need for unattractive and problematic tilt bars.

Inter-leafed shutter panels for complete privacy and improved security and light block.

With no tilt bar, the louvres are able to fit snugly against the shutter framework providing greater privacy, security and light block.

Our aluminium Security Shutters are custom-made and ideal for both indoor and outdoor use.

FUNCTION WITH FORM

Locally made for South African requirements from architectural grade aluminium and powder coated for a corrosion resistant finish.

HINGED

• BI-FOLD

• BY-PASS

SECURITY WITH STYLE

- A choice between a master key or multiple keys per order
- Patented strip-proof Italian locks (with double key turn) that operate locking bolts to secure both the top and the bottom of the shutter simultaneously
- We offer a locking system accessible from both sides for access doors
- Tamper-proof top and bottom guide systems prevent shutters being lifted out of the channels

Security Shutters have been classified as security barriers/gates by short term insurers.
