SHUTTERGUARD® ALUMINIUM SECURITY SHUTTERS

ShutterGuard® Aluminium Security Shutters are a savvy, stylish, safety solution for windows or doors – offering security without compromising on the aesthetics of your home, commercial or retail space.

The patented gear lock keeps the shutters in place. A 60 mm patented bolt secures the shutters to the floor, leaving no leverage to lift the lock out of the track. A 34 mm bolt secures the top track when locked. The Cisa system allows you to lock the shutters with a unique security key. Should you wish to have a double-sided lock, please request this from us.

TECHNICAL SPECIFICATIONS

UV Blockage:	100% when closed
Weight:	14 kg/m ²
Min/Max Width:	250 - 850 mm

SHUTTERSTYLE® ALUMINIUM BARRIER SECURITY SHUTTERS

Introducing Taylor's sleek ShutterStyle® Shutters. New ShutterStyle® Security Shutters. Playing it patently safe.

Introducing Taylor's new sleek ShutterStyle® Shutters. Innovation that's both affordable and aesthetically pleasing. These beautiful shutters offer a lightweight alternative to traditional security shutters. For the last 6 years, we've refined our technique to bring you a product with the Taylor seal of security and renowned quality. Featuring a 60 mm bolt, and a sleek new slide action and push-lock system, ShutterStyle® Shutters don't compromise on beauty and functionality. They are made from slim, yet robust aluminium. Suitable for both indoors and outdoors, these stylish shutters offer modular track options, new-to-market light-blocking system and seamless lines.

TECHNICAL SPECIFICATIONS

Min/Max Width:	250 - 850 mm
Min/Max Height:	600 - 2900 mm 300 x 2900 mm 850 x 2900 mm Except (Bypass) Width 1200 mm Height 2900 mm
Material:	Aluminium

SECURITY

- ShutterStyle® uses a new slide action and push-lock system
- Patented integrated louvre lock
- 60 mm patented throw bolt secures the shutters to the floor
- 34 mm bolt secures shutters to top track

UNIQUE FEATURES

Lightweight & Robust Aluminium	Operating mechanisms of the shutter are concealed with only one visible fixing.
Modular Track System	Range of profiles that will accommodate multiple tracks, raised and recess combinations and also the covering of rough edges to floor finishes.
Light-blocking System	Flexible clip fits eliminate incoming light between shutter panels.
Trimming of Panels	Allows for shutter panels to be trimmed with minimum replacement of components.
Flush Lock	Easy to lock and unlock with the new sliding flush lock, allowing you to conveniently operate the sliding lock without locking the shutters automatically.
No-show seamless tilt mechanism	Tilt rods are fitted inside the shutter panels meaning fewer unsightly hinges.
Bypass System Versatility	Bypass system can be a bottom roller instead of top hung, allowing for more opportunities to install the shutter.
Wider Panel Practicality	The beauty of aluminium allows us to manufacture wider panels, eliminating the need for additional shutter panels in your window or door opening.

HURRICANE ALUMINIUM SHUTTERS

The folding louvre Hurricane Shutters will open up any space, letting the outside in, while controlling the light, noise and temperature of your room.

Hello sunshine, goodbye dark and stormy days. With Taylor's Hurricane Shutters you can weather the storms and bask in sunlight on the lovely days. Hurricane Aluminium Shutters were originally designed to protect windows and doors from storms and high winds without compromising the aesthetics of a space. Suitable for both homes and offices, these stylish shutters, made entirely from aluminium, are not only beautiful but are functional, durable, won't rust, are easy to clean and come with up to 10-year warranties.

TECHNICAL SPECIFICATIONS

THERMOWOOD®
A breath of fresh air.

- 3-YEAR WARRANTY
- RUSTPROOF
- INDOOR ONLY
- CONTROL LIGHT, NOISE & TEMPERATURE

THERMOWOOD® SHUTTERS

Thermowood® Shutters are practical, custom-made louvre door shutters, manufactured from a durable, specially engineered wood substitute – extruded PVC – that has been thoroughly tested under stringent humid, hot and dry conditions to ensure longevity.

Natural light. Privacy on demand. Modern day living with our beautiful climate begs for spaces to be opened up to let in natural light and fresh air while maximising the views. Retractable, stacking shutters merge indoor and outdoor living, extending your living space.

TECHNICAL SPECIFICATIONS

UV Blockage:	100% when closed

- NATURAL TIMBER WOOD

TIMBER WOOD SHUTTERS

Beautifully finished and manufactured in South Africa from hand-selected solid timber, our Timber Wood range of shutters is 100% custom made. For those whose sense of style often outweighs their budget, these shutters offer a stylish, yet affordable solution.

They are available in all the configurations you have come to expect from Taylor; however, our timber range also offers you further design flexibility by adding a variety of shapes like circular, triangle, half circles - in fact, practically any shape you can think of.

Style should not sacrifice the ability to withstand inclement weather conditions, so these shutters are suited to both indoors and exteriors. Our components and materials are up to 30% thicker and more robust than imported alternatives. This continues our now legendary reputation for manufacturing to the highest standards of quality, backed by a full 5-year warranty.

QUALITY. INNOVATION. TRUST.

WHO ARE WE?

For over 60 years, Taylor has been synonymous with providing service excellence and innovative, elegant, quality products. Be it stylish aluminium or wood-substitute shutters, contemporary security gates, the streamlined simplicity of venetian, vertical, roller or woven blinds, Taylor has the perfect solution for your home or office.

Taylor innovation is savvy – merging design and functionality to provide stylish, sleek and practical window and door covering custom-made solutions.

HOW ARE WE DIFFERENT?

We know everyone has unique tastes so we work alongside home owners, designers and architects to provide Taylor-made-to-measure, locally manufactured, top quality products that are delivered and installed within our committed time frame to you.

We pride ourselves on our quality and service and offer a warranty on all products manufactured in our factory that they will be free from defects in material and workmanship, for a set period ranging from 2 to 10 years from date of delivery. This warranty is given subject to certain conditions.

QUICK TURNAROUND

We have an 8000 m² purpose-built factory and are able to manufacture within a maximum of two weeks from signed-off order*. Our service ethic includes the highest quality control, which is why we confidently offer 2 to 10-year warranties, depending on the product.

SECURITY WITH STYLE

Security shouldn't come at the expense of style. ShutterGuard® Aluminium Shutters are stylish, rustproof and perhaps, more importantly, through innovative construction, they also provide high-end security when closed. So you'll have complete peace of mind when away from home. Think of it as a haute couture suit of armour.

*Excluding delivery, which requires 5 working days.
