“ SKG Properties had the opportunity to work with PPI Solutions on the construction of our CEO’s penthouse beginning of 2019. Their efficient workmanship, quality of installation and attention to detail with any of our requests makes them highly recommendable. PPI Solutions also went above what was expected from them when it comes to service delivery and they never shied away from assisting us to resolve any issues we encountered on site. PPI Solutions will be an immense asset to any team. ”
